

North Shore Community Centre - 2017 Priorities

Prepared by North Shore Community Centre Management Committee

AGM October, 2016

Our 4 major Priorities for 2017 are as follows;

1. Reach out to a wider community
2. Be financially independent
3. Provide a well maintained and safe centre
4. Give back to the community

We intend on achieving the above priorities by doing the following;

- Maintain the Service the Centre Provides to the Community, Local Associations and Businesses whilst continuing to be financially viable.
- Continue to be financially viable and at all times seek to operate on a low cost economical basis.
- Continue applying for and acquitting Grants for wages and equipment.
- Continue our good working relationship and support from Council. Maintain the costs, service and maintenance conditions of the lease.
- Continue working with and networking with key Community Organizations, Council and local businesses to provide access and use of the Centre.
- Continue with attracting additional hirers to achieve a high occupancy in the wedding, training and functions area.
- Continue with Community engagement through the Annual Christmas Event.
- Continue providing free access and support to NFP's and Fund Raising Events.
- Continue with seeking ways to improve the service the Centre offers the Community and hirers.
- Continue to provide a safe environment for everyone that visits and uses the Centre.
- Continue with an affordable Marketing Plan that raises the profile and services that the Community Centre offer to the Community- makes us: "better known, what we do and where we are".
